EDUCAUSE Presentation

ITANA Constituent Group Meeting at EDUCAUSE in Seattle

Date: October, 25 2007

Time: 4:55PM to 6:10PM

Blurb:

I.T. Architects in Academia (ITANA) is focused on the practice of I.T. and Enterprise Architecture (EA) in higher education. This session is a chance to meet others and to hear about our work so far. We will open with a review of the various ways that I.T. Architecture is implemented at higher education institutions and the methods that people use to engage with campus. Discussion will follow on various hot-topic issues such as: Service Oriented Architecture, EA Pain Points and Carrots - what do you offer good architectural citizens. We will also plan for future ITANA work. For more information about ITANA, see http://www.itana.org and our wiki at https://spaces.at.internet2.edu/display/itana/Home

Resources from this session

The resources are on the EDUCAUSE site here: http://www.educause.edu/Resources/ITArchitects/162122

Notes from the session are posted on the ITANA.org site: http://www.itana.org/2007/10/26/educause-cg-meeting-notes/

Agenda:

To be determined- check out the Conference Call Details page to see when we will discuss this.
