2013-10-02 Cohortium Agenda

Agenda for MFA Cohortium meeting: 10/2/2013 2:00 PM EDT

These calls are held every other Wednesday in this same time slot. Next call is 10/16/2013

- Greeting and any agenda mods
- Internet2 Intellectual Property Framework: http://www.internet2.edu/membership/ip.html
- Old business (information)
- Standing updates (information)
    - Scalable Privacy Project
    - Shib Assurance/MFA RFP
    - CAS Assurance/MFA work
    - InCert
    - Reports from subgroups
        - 2013-09-20 - Technology Issues Subgroup Notes - David Walker
        - 2013-09-27 - Deployment Strategies Subgroup Notes - Mike Wiseman
        - 2013-09-30 - Product and Vendor Issues Subgroup Notes - Tom Scavo
        - 2013-09-25 - Business Case Subgroup Notes - Nathan Dors

- A developing business case template/example: University of Washington - Elements of Justification (discussion)

- Should we merge together the Technology Issues subgroup and the Product & Vendor Issues subgroup? (discussion)

- Educause and the next Cohortium meeting on 10/16 – should we cancel that Cohortium meeting? (discussion)
    - Point out MFA presentation at Educause

- IAM Online presentation about the Cohortium was presented on Wednesday, 9/11/2013, 3:00p-4:00p ET (informational)
    - IAM Online on the MFA Cohortium PDF of slide deck
    - Opportunity to survey institutions not in the Cohortium, we asked the following 4 questions, link is to summary of responses:
        - How Soon Beyond Passwords For Sensitive Stuff?
        - Current MFA Deployment Status at your institution?
        - Cohortium Deliverables Of Most Interest?
        - MFA Discussion Areas Of Most Interest?

- Exhort the Cohort: **Your stuff here** – please do contribute your institutional input to any and all of the following. Remember, this can be as simple as adding a single row to a table, or uploading a single document. The Cohortium will be of more value to the institutions participating, and higher ed institutions more broadly, the greater the variety of input & examples that we can collect.
    - Status of Multi-Factor Authentication at Cohortium Member Institutions
    - Alternative Strategies When Multi-Factor Tokens Are Not Available - Examples from Cohortium Participants
    - Implementation Reference – Add description of/documents related to your institutional deployment of MFA, following the great example of the University of Vermont

- Highlighting developing Cohortium whitepapers/diagrams/artifacts (informational)
    - Initial Deployment Strategies for Multi-Factor Authentication
    - Deployment Decision Tree documents
    - Multi-Factor Authentication Solution Evaluation Criteria
