

Health Information Exchanges

[Identity and Access Management for Health Information Exchange](#)

The Level of Assurance (LOA) Continuum: A resource for governing entities and their participants to examine identity management and progress along the LOA continuum to support secure exchange with a wider group of entities while reducing risk.
December 2013

[Trust Framework for Health Information Exchange](#)

Trust Framework for HIE: A framework for governing entities and their participants to share trust attributes to support exchange with a group of unaffiliated entities.
