

2014-02-05 Cohortium Notes

Notes from the 2/5/2014 Cohortium Meeting

Date and Time	February 5, 2014, 2:00p-3:00p EDT
Agenda and Meeting Materials	2014-02-05 Cohortium Agenda
Recording	

Action Items

- Everyone, please register for the new Cohortium collaboration platform, per [Mike Grady's Mail of 2-4-2014](#).
- Mike, David, and Nick Roy will meet to structure a new MFA management console work group to be announced in conjunction with the next Cohortium call on that topic scheduled for 2/19/2014.
- Future meetings of the existing Technology, Deployment, and Business subgroups will be canceled. Watch for information for our new MFA Management Console and MFA for Active Directory work groups.

Highlights

- We will recreate our work group structure along the lines described in [Proposed Cohortium Work Group Structure](#). The MFA Management Console and MFA for Active Directory work groups will be the first created. Scheduling for the MFA for Active Directory calls will start now; we'll coordinate scheduling for the MFA Management Console calls with our public Cohortium call on 2/19/2014.
- The call schedule for the existing Technology, Deployment, and Business subgroups will be canceled.
- While a "Selling MFA to Executive Management" work group will not be started at this time, Mike and David will be presenting to CIOs at the I2 Global Summit in April. We will bring these ideas to the full Cohortium as we develop the presentation.
