Notes 09.03.2014 Conference Call

Agenda

- Roll call
- Reminder of the Internet2 Intellectual Property Framework
- · Agenda bash
- Quick comment on vendor participation
- Progress of initial strategy assessments
 - Review what's been completed.
 - O Do we need any changes to the criteria?
 - Are there any strategies that should be added (or dropped)?
 - We'd like to complete this phase of the work by our 9/17 call. If you are a fact finder, please spend some time on your strategy before
 this 9/3 call so that we can discuss any questions you may have.
- Implementation vs. Deployment
 - O Do we want to restructure into two tables? If so, what new structure do we want?

Call Notes

- Attendees
 - Shaun Abshere, WiscNet
 - O David Alexander, IdM Integration
 - o Mark Beadles, OARnet
 - Steve Carmody, Brown University
 - Dedra Chamberlin, Cirrus Identity
 - Emmett Culley, California Community Colleges
 - Scott Koranda, Spherical Cow Group
 - Ben Poliakoff, Reed College
 - o Tom Scavo, Internet2
 - Mark Scheible, MCNC
- · Progress of initial strategy assessments
 - The column about support for authentication contexts, multifactor, and assurance is about Multi-Context Broker-like functionality, where the IdP can respond properly to requests from different authentication contexts from SPs.
 - O David will announce a process for fact finders for submitting their strategy assessments.
 - Please complete your assessments by our next call (9/17/2014).
 - We agreed to add Pros and Cons columns to the assessment table.
- · Implementation vs. Deployment
 - "Implementation" refers to capabilities of the software used to implement the IdP, how it's configured, etc.
 - "Deployment" refers more to the higher-level deployment strategy (e.g., run locally, outsource as a cloud service).
 - We will readdress this issue after we've done our fact finding. The table has been useful in helping us understand what to collect, but that may not be the best way to present our findings.

Action Items

- David will announce a process for fact finders for submitting their strategy assessments. (done)
- David will add Pros / Benefits and Cons / Risks to the table and the template. (done)
- Please complete your assessments by our next call (9/17/2014).
