## Buddy Groups formed at CAMP in Philadelphia, June 2009

Several Buddy Groups were proposed on the final morning of [CAMP in Philadelphia](#). These are groups that can organize as desired -- through conference calls or emails -- to share access management information and experiences going forward.

UBC can share information

*Note: All interested in the workflow topic are invited to join the discussion on the ITANA calls. See [www.itana.org](http://www.itana.org).*

### TOPIC: How to analyze campus group and role issues and determine how to proceed

This is a general startup issue

Make this an [AI] for the MACE-pacman working group

*Note as of 30-June-09 : The MACE-pacman working group briefly discussed this [AI] at their call on 25-Jun-09. They needed more clarification on what this topic involves if they are to consider working on it in some form.*
