1:00-1:20pm Welcome/Introductions

1:20-2pm K20 Initiative Leadership Team

- Open offices include Chair and Co-Chair plus 3-4 Members at Large
- The leadership team focuses and guides the K20 Initiative forward, sets the agenda and facilitates quarterly conference calls and member meetings.
- Time commitment is about 3-4 hours/month at a minimum

Carol Willis - TX
Ann Zimmerman - OH
Kim Owen - ND
Kim Breuninger - PA
Jamie Neilsen, Merit (K-12/Libraires) - MI
Larry Gallery - NY
figure out the continuity plan -

2:00-2:30pm Connectivity Survey Update/Data Preview

- Review data collected to date
  - state and national survey numbers
  - new organization directory

- Marcia Mardis - Broadband evaluation progject
- Next steps - remaining data to be collected
- How can we best leverage the results?

IN - needs review. graphs are misrepresenting the real bandwidth/connectivty profile. total numbers of K12 distrcits possible changes between past and current surveys. these should be the same.
General map display bug -

1. Change K-12 map totals display (on the bottom, below the map display) to total all k-12 orgs (K12 schools, districts, k-12 service providers) not just the districts.

2:30-2:45pm (BREAK)

2:45-3pm - CIPA and Web2.0/Cloud Computing

- CIPA overview
- Current standards of practice for policy development around CIPA in libraries and K-12.
- Begin considering the implications of web 2.0 and cloud computing in K-12 settings
- Is there interest in pursuing this conversation in the future - Working group? Organize a BOF session at the next MM?

3:00-3:15 -StateNets and the Quilt - opportunities for collaboration

3:15-3:30 - ARRA broadband initiatives

3:30-3:45 - Other future projects for K20?

H4. NOTES:

International Polar Year and International Year of Astronomy Project Updates + more

100 Hours of Astronomy - used Internet2 network to bring together. Because of partnerships and need to put the technology on the web, the fidelity of the original media. ustream. World Ocean Network (WON) - could be a good org to baseline the aquarium

NOAH, ASTEC, INTERNET2 - perfect opportunities for professional development and formal/informal education.

Improving climate literacy - web casts, create opportunities for students, teachers, and citizens from around the world to talk with experts on the subject. Interactive presentations in science centers, classrooms using geobrowsers and data sets using "sphere-casting" and "dome-casting". Internet2 is ideally positioned to provide the networking capacity to make these remote presentations and immersive learning experiences possible.

Work in partnership with NOAH, NASA, ASTEC to facilitate this

ACTION ITEMS - GET in touch with David Herring to get K-12 sessions on Muse.

SEGP Update

Our Courts

just beginning to rollout communications. ACTION ITEMS: get Abigale to describe our courts on Muse. bowing to demands of NCLB and the need to focus more on reading/math, Civics classes are no longer being taught in K-12.

Open Source Tools for Managing Research and Learning in Virtual Worlds

work with Henry Kelly to have Muse become the social network connecting folks working on his virtual worrld project. first see if they will model the project in Muse. Have people start joining the project.

US Holocaust Memorial Museum -

ACTION ITEM - connect Michael with the K20 Initiative Advisory Committee. show him the list of organizations connected to I2 via the SEGP
