

Rename AdmitMe

It seems so trivial, but we really need to get a real name for what we've been calling "AdmitMe." We can't afford to let a name we're not going to stick with become entrenched. AdmitMe belongs to someone else.

I've asked for ideas, and the pickings have been slim. So, I've started a list here in hopes of getting some discussion going. Add names to the list, make comments. Let's just get this over with.
