55 Questions about MOOCs

The CIO CG came up with a list of 55 questions about MOOCs. ITANA will take these questions and organize them into a Solution Path structure.

We are still seeking volunteers from ITANA who would like to organize the questions into a solution path diagram.

The current volunteers are:

* Jim Phelps, UW-Madison - WG Lead
* Scott Fullerton, UW-Madison
* Glen Donaldson, Ohio State University (or his co-woker Thomas)

The task is to categorize the questions and try to develop a flow for the questions that would walk people through the analysis. We can also combine the questions. EDUCAUSE staff have also reviewed the questions and made some changes and additions that we will need to stay in sync with.
