### AGENDA

1. Call Schedule Reminder
   a. Alternating weeks between API-focused calls and Use Case-focused calls
   b. Everyone's welcome to both, but...
   c. This week: APIs (and StratOrg inquiries)
2. CPR, Grouper, Messages, and XMPP (JimmyV, ChrisH) (30 min.)
   a. Last time we had an API discussion, Jimmy gave us an update on his (rather promising) findings regarding integration of XMPP with the notification / messaging interface currently used by the PSU CPR. That led to the thought that Grouper, which already exposes XMPP as a notification / messaging mechanism, might be ripe for a PoC integration of some sort. We'd like to talk that through, and see if there's actually an interesting opportunity there, or if not, what other Grouper<->CPR integration mechanisms we should explore.
3. StratOrg deliverables and Technical Oversight (KeithH, RobC, All) (30 min.)
   a. Since our last call, the StratOrg folks have floated a couple new ideas along with a request for some additional information / interaction. We need to talk through the ramifications of those discussions, decide how we want to interact with the StratOrg folks about these new requests, and prepare whatever we need to to respond to their inquiries. Keith and Rob can begin the conversation, but hopefully this will be an open discussion.
   b. Materials Relevant to Provisioning and Integration Workplan, Timeline & Milestones
       i. https://spaces.at.internet2.edu/display/cifer/Draft+Provisioning+Work+Stream
       ii. https://spaces.at.internet2.edu/display/cifer/Provisioning+Workstream+Timelines+and+Milestones
       iii. https://spaces.at.internet2.edu/display/cifer/High-level+overview+of+the+provisioning+workstream

NOTE: Next call will be a "use case" discussion on 1/29/2013. Next API call will be in two weeks, on 2/5/2013.

NOTE: CIFER API calls are biweekly on Wednesdays at Noon Eastern, 9:00 am Pacific; Next CIFER API call is on 12 December
