Grouper Developers' Wiki

Welcome to the Grouper Project Wiki

Get Involved...

Use this space for all Grouper-related activities that go beyond mailing list discussions.

Background	The Grouper Working Group is a result of the MACE-Dir-Groups' initial efforts. Grouper is an open source toolkit for managing groups and access to resources.
Conference Calls & Minutes	Links to notes from Working Group conference calls.
Development Items	View suggested discussion items for the Working Group and other pre-documented items: • Grouper Product Roadmap - Keep in touch with Grouper's priority list.
Documents & Presentations	Attach your WG-related presentations, documents, etc.
Contributions	Do you have something to share? Code, documentation, or use cases?
Resources	Looking for that self-assessment tool?
Mailing Lists	The Grouper Working Group mailing lists are intended for Grouper-related questions, discussion items, news events, release updates, etc., and for sharing your campus' questions, concerns, and expertise with the Grouper community.
API (Javadoc)	Javadoc (click version, module, site reports, javadoc) 2.6 API Javadoc

For additional feature listings, tarballs, and documentation for previous releases, please see Archives.

NOTE WELL: All Internet2 Activities are governed by the Internet2 Intellectual Property Framework.
