## NIH Federation InCommon Wiki

Welcome to the NIH Federation InCommon Wiki. This wiki provides information about current Federated Identity tools, including changes and current attributes, as well as general information about federating with NIH. For more information, questions, or comments, email [NIHFederationRequest@mail.nih.gov](mailto:NIHFederationRequest@mail.nih.gov).

## NIH Federated Applications

Below represents a list of *some* of the 48 NIH Federated Applications. Due to security and privacy concerns, not all available applications are included here.

Application Name	Application Description
<b>Human Salivary Proteome wiki</b>	The Salivary Proteome Wiki is a collaborative, community-based Web portal to more than 1,000 unique human saliva proteins identified by high-throughput proteomic technologies. The wiki is developed for the research community and the public to harness the knowledge in the data and to further enhance the value of the proteome. You are very welcome to share your thoughts in the forums; add your own data to the growing database; annotate the proteins; or just explore the site.
<b>Annual Progress Reporting Science Information System (APRSIS)</b>	APRSIS used by external grantee community to input, edit, and submit their annual progress data to make funding decisions for extramural grants.
<b>Clinical Translational Sciences Award (CTSA)</b>	CTSA Management Systems is a web based system that tracks NIH CTSA Subcommittee and National CTSA Steering Committee activities.
<b>STAR METRICS</b>	A federal and university partnership to document the outcomes of science investments to the public.
<b>MRI Scheduler</b>	Johns Hopkins/NIA MRI scheduling application.
<b>Public Reviewer</b>	An application for gathering applications for public reviewers. The Institute has found that input provided by public reviewers adds important perspective and sensitivity to the review process and helps to ensure the public health relevance of funded grants.
<b>The database of Genotypes and Phenotypes (dbGaP)</b>	The database of Genotypes and Phenotypes (dbGaP) was developed to archive and distribute the results of studies that have investigated the interaction of genotype and phenotype.
<b>PubMed</b>	PubMed comprises more than 20 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full-text content from PubMed Central and publisher web sites.
<b>Flow Cytometry Experiment and Reagent Management System (FERMS)</b>	Manages the reagents, and users who conduct flow cytometry experiments at the Vaccine Research Center (VRC). The flow cytometry core at the VRC provides services to the investigators at the VRC and collaborators at the NIH and other scientific institutions.
<b>Address Lookup Tool (ALT) for National Children's Study</b>	The Address LookUp Tool (ALT) allows medical providers affiliated with defined National Children's Study (NCS) segments to look up addresses of their pregnant patients to determine if they may be eligible to participate in the NCS.
<b>Web Collaboration</b>	NIH Web Collaboration, commonly called web meeting or Connect, is a real-time web conferencing and collaboration system available through the NIH. For more information, see the FAQs at <a href="http://webcollaboration.nih.gov/niLogin.aspx#faq_actions">http://webcollaboration.nih.gov/niLogin.aspx#faq_actions</a> .

## NIH Federated Institutions

### Current List of Federated Institutions

Case Western Reserve University  
Colorado State University  
Columbia University  
Cornell University  
Duke University  
Indiana University  
Johns Hopkins University  
Louisiana State University  
Medical University of South Carolina  
Northwestern University  
Oregon Health & Science University  
Rutgers, The State University of New Jersey  
Stanford University  
Stony Brook University  
Texas A & M University  
The Ohio State University  
The Pennsylvania State University  
The University of Arizona  
University of Alabama at Birmingham  
University of Arkansas for Medical Sciences  
University of California, Davis  
University of California, San Francisco  
University of California-Irvine  
University of California-Los Angeles  
University of Chicago  
University of Cincinnati Main Campus  
University of Florida  
University of Illinois at Urbana-Champaign  
University of Iowa  
University of Memphis  
University of Michigan  
University of North Carolina at Chapel Hill  
University of Pennsylvania  
University of Pittsburgh  
University of Rochester  
University of South Florida  
University of Southern California  
University of Texas Health Science Center At Houston  
University of Texas Health Science Center At San Antonio  
University of Texas Medical Branch At Galveston  
University of Utah  
University of Washington  
University of Wisconsin-Madison  
Vanderbilt University  
Virginia Commonwealth University
